Clifton.

## THE FIGHT IS STILL ON.

The present session of Congress will adjourn without any action being taken in regard to statehood for Arizona or any other of the remaining territories. The party which has been cracked over the heads of the recalcitrant Republicans who were disposed to give to Arizona her constitutional rights, and the caucus agreement, having for its purpose the joining of Arizona with New Mexico, has been postponed until the next session. The Democrats have fought a noble fight during the present session. It has been a hard and long drawn out battle, but they have won. The unfairness of President Frye in appointing a conference committee opposed to the wishes of a majority of the Senate, was manifest during the last days of the session, but with this advantage the Republicans' policy was defeated. The battle will be fought again in the next Congress with increased vigor, but the outlook is not favorable for the ambition of this territory to become a single state, with the next Congress overwhelmingly in favor of the Roosevelt policy, which can no longer be construed in any other light than favoring joint statehood.

Col. J. F. Wilson, Arizona's delegate to Congress, has fought a good fight. With Senator Bate, of Tennessee, the plan of defense was mapped out during the holidays, and Marcus A. Smith, the succeeding delegate, has been on the firing line continuously since Arizona's prosperity and welfare has been in danger.

The retention of the Foraker amendment is now the only ray of hope for the preservation of Arizona's autonomy. The Democrats will be found in the succeeding Congress in exactly the same position they occupied in the present one, battling for the rights of Arizona, and it is hoped that enough Republican Senators will be found to insist to the end that Arizona shall not be destroyed.

The danger that threatens Arizona has only been temporarily removed. The attack will be renewed at the next session of Congress with renewed vigor. During the interim Arizona will be afforded an opportunity of doing a great deal to defeat the joint statehood measure.

Within the bounds of Arizona today millions are invested by men of Michigan, Minnesota and Pennsylvania who should take up the fight of Arizona as their fight. Between March and June much good can be accomplished to offset the danger that threatens. This is a time to be up and doing. The impending disaster threatens stronger than ever.

How in the world did the employees of the Copper Queen company and other employees of the mining companies in the Warren District get along, with Neville away off there in Nebraska for so many years?

You employees of the Copper Queen company in Douglas get your wages in store orders. Did you know that? Neville, your representative in the Legislature, says so, and that does settle it.

Attorney Ross, of Douglas, has been dispatched to Phoenix to do a lobbying stunt. Never saw a lawyer yet who would not take a job with a retainer fee in advance.

The Mexican employees of the smelters at Douglas are forced to eat ham and bacon by the company, says Mr. Neville. Too bad, when they have such a fondness for chile con carne.

"Patsy" Collins, member of the legislature from Mohave county, wants the lawyers all transported far beyond the northern sea. Not a bad suggestion.

Denn-Arizona stock has a real cash value of the proverbial third cents. Yesterday this stock was quoted at ten dollars. That's business.

All the Rough Rider officers are in Washington today to help swell the parade.

## A MATTER OF HEALTH

## HOUSE BILL NO. 70.

House Bill No. 70, introduced by Wm. Neville, member of the Legislature from this county, has reached the Council, where it has been referred to the Committee on Mines and Mining. If there is any portion of the territory where the hills complained of in the bill exist, the law should be enacted. Cochise county will not be affected in any way, shape or form. There are no due bills, or punch-outs in circulation in this neck of the woods, and if the bill is intended to correct any evils in this section it will fall short of the purpose.

The citizens of Cochise county, which represent about three-fourths of our inhabitants, who are employees of large mining companies, do resent the statements made upon the floor of the House by Mr. Neville, that the workmen in this county were paid by the mining companies in STORE ORDERS. The Warren District can take care of a great many honest workmen during 1905. The outlook in this section was never better for an increase in population, and the workman who has an idea of locating in our midst will find eight hours work, wages paid in cash, and the most pleasant relations existing between employer and his employees.

It is useless and a waste of time to represent conditions as otherwise. Any statement to the contrary can not be substantiated.

Is it possible that the Phoenix Enterprise quoted Judge Neville incorrectly? We are holding our ear to the ground for the correction.

## FINDS IMMENSE SPOTS ON SUN.

Pittsburg Astronomer Announces Discovery of New Group.

Pittsburg, March 3.—Another immense group of spots has made its appearance. John Brashear said this morning:

"Yesterday about 9 o'clock another group of sun-spots appeared in the eastern meridian. They cover an area of possibly 3,000,000,000 square miles, and are more active than the great spots which appeared last month, and which are breaking up and disappearing beyond the central meridian. The new spots are likely to cause disturbances of some importance in the atmospheric conditions later on, but it is too early to predict positively as to that."

For an Impaired Appetite.  
Loss of appetite always results from faulty digestion. All that is needed is a few doses of Chamberlain's Stomach and Liver Tablets. They will invigorate the stomach, strengthen the digestion and give you an appetite like a wolf. These Tablets also act as a gentle laxative. For sale by all dealers in patent medicines.

## COPPER

The new edition of the COPPER HANDBOOK lists and describes 3,311 copper mines and copper mining companies in all parts of the world, covering the globe, these descriptions ranging from two lines to 12 pages each in length, according to importance of the mines. The descriptions are not padded, but give facts in the most condensed and get-at-able form. There are also fifteen miscellaneous chapters, devoted to History, Uses, Terminology, Geography, Geology, Chemistry, Mineralogy, Metallurgy, Finances and Statistics of Copper, rendering the volume a veritable encyclopedia on the subject of Copper and everything pertaining to the metal.

## It is the World's Standard Reference Book on Copper

Every Miner, Prospector, Banker and Broker needs the book. Price is \$5 in huckram binding with gilt top, or \$7.50 in full library morocco, and the book, in either binding, will be sent, fully prepaid, on approval, to any address in the world, to be paid for if found satisfactory, or it may be returned, within a week of receipt, and the charge will be canceled. Address the Author and Publisher.
